

Chapitre 9

A fractal image with a color gradient from purple to yellow, set against a dark background with small white specks. The fractal is a complex, self-similar pattern that fills the frame. The colors transition from a deep purple on the left to a bright yellow in the center, with various shades of blue and orange in between. The background is a dark, almost black, space filled with numerous small, white, star-like specks, giving it a cosmic or starry appearance.

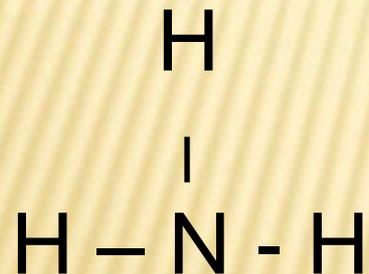

Activités

Activité 1 : écrire les formules brute, développées et semi-développées d'une molécule
